

The new project builds on several years' work by The Care Forum's Room 102, Spot On and Purple Pages services, and was made possible with start-up funding from the Regional Improvement and Efficiency Partnership.

It is completely free to use and be listed on. Its records are regularly checked and updated to keep them up to the minute.

It already contains the details of 1,000s of different health, wellbeing and community services, ranked by relevancy, with no advertising.
